

About iCUE

The international Consortium of University Entrepreneurs (iCUE) is a global consortium of student enterprise enhancing organisations. The network was initiated by Victoria Lennox (Founder & Chair of NACUE and recent holder of the 2011 Queen's Award for Enterprise Promotion), and was founded in May 2010 among member organisations from the UK, Denmark, Sweden, Spain and Bulgaria. Today, iCUE now supports student enterprise initiatives in more than 18 countries and continues to grow, now including China, USA, Brazil, Finland, Vietnam, India, Rwanda, Ireland, Norway, Canada, Nigeria, Ethiopia and Germany.

iCUE's mission is to drive global youth entrepreneurship and to represent the views of young entrepreneurs to national and international policy leaders and decision makers. It does so by connecting leading national youth enterprise organisations from all over the world, so as to enhance global collaboration, share best practices and develop messages and thought leadership to share with

international decision makers. Since launching, iCUE has already had a voice in 2010 at the World Economic Forum's Enterprise Education Roundtable in Brussels and at the UNCTAD 2011 Expert Group on S&T and Enterprise Education in Geneva.

iCUE is fortunate to have the support of leading global expert Advisors and a Youth Advisory Board who support the strategic and sustainable evolution and growth of iCUE as it works to advance youth entrepreneurship across the world.

Each year iCUE's members convene for its "Annual Global Round Table" to discuss national developments and to further accelerate global youth entrepreneurship. Throughout the year, the members interact and work together via bi-weekly conference calls, a monthly eNewsletter, a shared Wiki and smaller project-based task forces. Each month iCUE develops and distributes guidelines & case studies that directly support the continuous development of national organizations particularly.

iCUE's 2011/12 Objectives

- (1) To increase global membership,
- (2) be recognised as a global hub for youth entrepreneurship society models,
- (3) disseminate best practices, guidance tools and templates,
- (3) achieve financial sustainability, and
- (4) foster the growth of similar movements across the world.
