## Hushpreet Dhaliwal

Hushpreet's enthusiasm for entrepreneurship and development of start-ups came when she studied in the USA and worked at an international start-up. She holds a first class BA degree in International Business. Since graduating in 2009, she has managed NACUE's corporate relations, operations and developed key programming to unlock the entrepreneurial potential of students.

Hushpreet has since been appointed CEO to carry NACUE through into its next stage of growth. She sits on the advisory boards of Astia, ISBE and the UK Government's Steering Group on student-led Enterprise Societies. Her interests lie in business model innovation, commercialization, understanding innovation-driven ecosystems and mobilizing great people and resources to affect change.
